What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign. If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Aspects between the planets are also listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart report.

### Planet Positions, Ascendant, & Houses

---

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

The following table shows the planetary aspects in your natal chart. Interpretations of these factors are found below. The numbers listed under the column "Value" serve as a relative rating system for each aspect and are determined based on the planets involved, the aspect type, and the orb of influence. ### Natal Chart Report

#### Birth Chart

This birth chart report shows the positions of the planets for Valerie Nicholls.

#### The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Libra

Libra natives are generally thought to be sociable, somewhat intellectual souls. They have an almost innocent way about them that makes them very approachable. Generally quite eager to cooperate, Librans spend a lot of their time trying not to rock the boat.

In theory, Libras are peace-loving. In practice, they can quietly stir up all sorts of trouble with their ways. Because Libra enjoys balance in their lives, they seek the middle ground. In the process, they may end up trying to be everything to everyone. This is where their reputation for untruthfulness comes from. Generally, their untruths spring from a true desire for peace and fairness--although they may not be comfortable with direct and malicious trickery, they feel totally justified when they lie in order to avoid making waves. Peace at any price! In this sense, they seem harmless. But, what can result is quite a ruckus! People involved with Libras may crib about their lack of directness and their apparent inability to take a stand. Librans are experts at avoiding being the one to blame. When confronted, they'll (calmly and reasonably) say, "What, me? No, I just want peace." "On the fence", "middle ground", "middle road" -- these are all expressions that we can safely associate with Libra. Some more powerful signs may consider Libra a little on the weak side. This is all a matter of opinion, however! Without Libra, life simply wouldn't be as fair.

Librans are known for comparing and thinking in relative terms, instead of in absolutes. This weekend is not just a good weekend, it's better than last weekend. These people are always looking for the "best" way or the "right" way to live. Harmony is the ultimate goal, but their idealism and high expectations can mean plenty of discontent. Since life presents all of us with an extraordinary amount of choices, if Libra doesn't learn to live in the moment at least some of the time, they'll be in a constant state of unrest. Society needs rules, and these rules attempt to bring justice, equality, and fairness. On an individual level, Libra represents these laws of civilization. Libra comes across as very civilized and rather refined.

She has a great need to be part of a group.

She likes to mix with people and seeks partnerships. She likes and respects justice. She approves of society's values. She is level-headed and assimilates quickly.

Weaknesses: may not think enough, she is frivolous. A dilettante in love. She is easily swayed by group pressure.

Libra with ascendant Gemini

Sun in V: The Sun is in the fifth house

You want to be noticed for your unique and special qualities and your creativity. You are happiest when you are expressing yourself in a special way and attention comes your way as a result. You have a flair for drama and/or sports. You are proud of your fun-loving attitude towards life. As you demonstrate your ability to shine, avoid grabbing center stage all of the

time. Your happy disposition is enough to get noticed, but do find creative ways to express yourself, as this is the path to true happiness for you.

#### 5 Conjunction between the Sun and Saturn

It is easy and natural for you to accept responsibilities, to lead a rather ordered life, and to apply caution in your financial and business dealings. You rarely jump to conclusions or take uneducated risks. You have a certain amount of patience and enough self-discipline to slowly but surely achieve what you set out to do. Although somewhat undemonstrative, you are generally loyal and responsible people to those you care about. You take your time in most endeavors and generally use a step-by-step approach to most projects--but you steadily reach your goals. You are naturally trustworthy, and you don't have much patience for those who don't show respect for others, who take foolish risks, and who lead disorganized lives.

#### 5 Sextile between the Sun and Uranus

It is natural for you to question tradition. You are, above all things, an individualist. You naturally rebel against that which is established. It doesn't mean that you consistently break all the rules, but you definitely do question some of the rules, especially those that simply don't make much sense. You possess a huge distaste for routine. You work best when you have some say as to when and how you get things done. You possess much self-integrity. You avoid labeling people and are most offended when others attempt to label or stereotype you.

You easily embrace new ways of doing things, you stick up for the underdog, and you express yourself in unique and inspiring ways. You don't have to try to stand out as unique--you are original, creative, and progressive without trying. You are far from pretentious. You value honesty and truth, and you avoid putting on airs. You believe in the equality of people, and easily relate to people from all walks of life. You possess an unmistakable enthusiasm about life, and generally your life is interesting because you invite unusual or adventurous experiences into your life. You are generally appreciated by others because you are open-minded, fair, and not judgmental. Nothing really seems to faze you! You take things in stride, and are rarely shocked or taken aback by human behavior.

#### 61 Sextile between the Sun and Lilith

You are mostly comfortable with the darker side of your nature. A student of human nature.

### **The Moon**

---

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Leo

Depending on other positions in the chart, Moon in Leo people are not necessarily outgoing. When they feel comfortable, they do like being the center of attention. That is, they like being in the "spotlight" in the comfort of their own homes and with family and friends. They enjoy entertaining others, and often take on the role of comic. Lunar Leos often feel a need to organize, and even control, their families and friends. They have an inner mission to set things right, and generally like to oversee the goings-on in their little circle.

This is a rather creative position of the Moon. At the very least, Moon in Leo people want to create and entertain. They can be rather lazy at times, and a little bossy too. Generally, though, they have a deep need to treat others fairly and justly. Lunar Leos require lots and lots of love and care in order to function well in the world. When they feel slighted, these people can be dramatic in their emotional displays. When their pride has been hurt, they are given to big scenes and sulking. This rarely happens in public, however. Lunar Leos are far too concerned about their image to make splashy scenes outside the comfort of their own homes. In public, they prefer to take things in dignified ways. At home, however, they're given to big displays of emotional drama. These scenes generally don't last too long, however. Lunar Leos are often personally popular folk who are valued for their integrity and strong sense of justice. Generally, it is easy to reason with a Lunar Lion. Appealing to their well-developed sense of fairness usually works well.

Short description:

She is brave, knowing how to take risks and possessing the courage of her convictions, honest, imposing, and sharp. She has a great sense of, and respect for, justice. Organizational sense. Selectivity with friends but is not overly influenced by them. Taste for splendor.

Potential issues: changing and numerous affections. Emotionally demanding and proud. Brooding when attention is not forthcoming.

Moon in IV: The Moon is in the fourth house

She likes family life, peace and quiet -- she likes to stay at home, surrounded by loved ones, in agreeable circumstances. Strongly influenced by the mother.

You long for a sense of true belonging, but you may be quite restless in your search. You might change residence frequently, or simply feel the need to make many changes in your home. Moving frequently may be a healthy thing if it keeps you emotionally stimulated, but if you find that you do so on whims and later regret the changes, you might want to treat it as a symptom of emotional unrest--as a sign that you are in a constant search for the perfect mood and setting, when in fact a feeling of belonging should be worked on from the inside out, not the outside in! Some of you might remain rather immature on an emotional level, never wanting to truly grow up and take care of yourself. Attachments to your past, traditions, and family are strong.

## 199 Sextile between the Moon and Mercury

You can be quite expressive and animated in your speech. You have an outstanding memory and tend to pick up a lot of information from your environment. You love to chat and to exchange ideas. Even if you are shy, once you're friends, you love to talk about pretty much anything under the sun, and you enjoy sharing stories from your past! For the most part, you are focused on day-to-day activities in your communications rather than on grander philosophies. You are naturally curious and interested, and others find you very easy to talk to. You are accommodating and curious, but you are not as well equipped to handle heavy emotional demands. You thrive on change and variety. You might be a little addicted to gossip! More probably, however, you are simply very curious about others. There is a twinkle in your eyes, and you are never short on humor. You are playful and versatile--you make a fun companion and an interesting friend. You listen! Yes, you do talk and occasionally interrupt in your excitement, but you are a curious person who does want to hear what others have to say, and that is a real pleasure. In fact, you are more able than most people to get others talking, simply because you are very receptive and sympathetic. You pick up others' feelings and body language readily.

She has good judgement, a good memory. She is intelligent, imaginative, vivacious, and develops, adapts, and grows throughout life. This adds a youthful, lively quality to the personality. She may have an aptitude for, or interest in, learning foreign languages.

## -96 Square between the Moon and Uranus

She may at times suffer from an almost feverish, non-constructive restlessness. She is too susceptible. Her life can be full of change or the emotions are often in a state of flux. Also, frequent changes of mind. She is irritable and stubborn at times due to an inner restlessness that is hard to satisfy. She can have difficulty concentrating on a job, although is capable of much if allowed to move from task to task to alleviate extreme boredom with routine. Nervous strain. Her friendships may be like her professional and love life - sometimes unstable or erratic. There is a strong need for closeness, but when people get too close, she can get cagey, as she values personal freedom just as much.

## 59 Trine between the Moon and Neptune

Positive aspect: She is kind and sympathetic, with a strongly compassionate nature. When in love, she is usually very devoted. In fact, she is devoted by nature, not only in matters of the heart.

There is an unmistakably compassionate and understanding side to her nature. She has a natural affinity to music. While everyone enjoys music, people with Moon in harmonious aspect to Neptune respond to music as a vehicle to heal, relax, and to uplift the soul. Naturally perceptive, without even trying she tunes into the feelings of others, and the mood of her surroundings. There is a distinct emotional need to escape into the world of

imagination, and to withdraw from others at times when she needs to re-center herself, largely because she tends to "take in" a lot of mixed energies from her surroundings. Strong and sudden "feelings" and hunches can overcome her. More often than not, her intuition is correct, although her imagination is also powerful and she can read too much into a situation as a result. Some laziness is associated with this position. This stems from a natural timidity and sensitivity that is apparent from youth. She may have been labeled "shy" in youth, and family members or friends may have jumped in to "save" her from situations that required boldness or aggressiveness. Thus, passivity was accepted and, as adults, she may be less experienced than most when it comes to reaching out or going after what she wants.

#### 97 Sextile between the Moon and Pluto

She can waver between a rich and successful domestic life and social success, perhaps having difficulty succeeding at both. Very perceptive and given to psychoanalyzing people. A strategist. Powerful emotions and intense feelings.

#### -29 Square between the Moon and Lilith

Love-at-first-sight is to be avoided, as it will make one forget all other duties and lead to problems. There can be obsessions. Emotions can take over the life at times.

#### -86 Opposition between the Moon and Midheaven

She can have an irresolute nature, with sudden changes of humor. She is changeable, not always following through on her own objectives since these change often. This instability shows itself not only in professional life but also in love life and friendships. There can be a love-hate relationship with one's status or reputation. She may often feel misunderstood by parents, teachers, or bosses as the wrong image may be projected.

## **Mercury**

---

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Libra

Usually quite diplomatic and tactful, she evaluates and weighs things up endlessly, often to the point of indecisiveness. Of good judgment, she expresses herself clearly. Before coming to an opinion on a subject, she listens to the opinions offered by various people and can compare them before making up her own mind. Mental affinity in her relationships is paramount. She is good at compromising and always tries to put herself in others' shoes. Some mental laziness.

Mercury in V: Mercury is in the fifth house

Taste for intellectual games, sports that require skill and finesse. She is very curious about everything, even in love. She likes children.

You tend to use your voice, whether written or spoken, as a means of creative self-expression. You can be witty and humorous, an engaging communicator, and a fun friend. You love playing games, especially ones that employ your intellect. You love tricks, jokes, plays on words, and mimicry. You might be skilled at impersonations. Some of you could be clever at lying. You might have a tendency to promise more than you can deliver, or overstate your case. In some way, you are very entertaining with the spoken and/or written word. Communication and intellectual rapport is most attractive to you when it comes to romance. In some cases, this can indicate more than one lover at once. Curiosity can be a strong motivator for making social and romantic contact. You might also take much pride in your children's intellectual abilities and talents. You would make a good teacher, as you are very curious about how people learn and can come up with many ideas that allow you to teach others creatively.

### 193 Conjunction between Mercury - Pluto

She has a great sense of observation and quickly grasps and sizes the situation. She is crafty, subtle, and perceptive.

### 3 Trine between Mercury - Ascendant

She is intelligent, with quick and lively reflexes. She is preoccupied with her circle, likes to exchange ideas with her friends, but also with strangers. Of an open nature, often reaching out to others.

### 12 Trine between Mercury - Midheaven

She likes to have her own ideas about things, to form an opinion and think over the problems it poses. She is an intellectual.

## Venus

---

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Scorpio

Venus in Scorpio people attract others with their intensity and willingness to commit. They have a strong and concentrated manner which suggests their feelings run deep. Their actions in love tend to promise deep commitment and sexual pleasure, even if they are not telling you this directly. Their appeal lies in their focus on you, and their dedication. Venus in Scorpio seems fearless when it comes to intimacy. Potential lovers get the feeling that Venus in Scorpio will never stray, that they are intensely loyal to the one they love. They possess you, and somehow make it seem attractive to be possessed.

Venus in Scorpio natives give you their complete attention. These people are very focused on their partners. Depending on your personality, you may find this unnerving or entirely flattering. They have a strong need to control their partner, although this won't be

immediately apparent, and they may not ever admit to this. Their body-and-soul love and commitment can be so intense that it eclipses fun and makes loving them a very heavy experience. Their emotion and intensity may seem overdone to those looking for a more lighthearted relationship. These people take things to extremes, and can be very provocative. Although they want to explore all of your nooks and crannies, they won't always be forthcoming with their own. When you've upset these lovers, you'll know it. Depending on the moment, Venus in Scorpio will shoot you one of the most piercing glares around, or totally blow up. Whichever style they choose, a slighted Scorpio lover is not a pretty sight. These people can be jealous of all of your attachments, but few will admit it. They're not afraid of being underhanded in matters of the heart, and they are experts at cutting through all the fluff and seeing you for what you are. Still, you may find their conclusions about you seem skewed and mistrustful.

Pleasing Venus in Scorpio involves demonstrating your complete commitment and loyalty to them. Appreciate their guts when it comes to love and intimacy -- they're proud of their courage in these matters. If you can, and they're deserving, relinquish some of the control in the relationship. Let them feel they own you, without taking it to extremes. Remember, though, that some Venus in Scorpio lovers can and will take advantage of you on a subtle level, if only to keep you all to themselves. Let them have their secrets and their silences.

Short description: Sensual and passionate. Passions run hot and cold. Full of ardor and desire where the partner needs to be able to match her level. Can be jealous and possessive. If disappointed or deceived in love, she can become bitter. Usually very loyal.

Venus in VI: Venus is in the sixth house

She may be devoted to sick or poor people. Might work in a medical or social setting, where she may meet her partner, who can be a great help professionally.

Your expressions of love and affection are practical and helpful. Being of service to a partner is especially important to you. In fact, you might go to great lengths to be available at all costs to a loved one. While you may not be flowery or showy when it comes to expressing love, you show your love by your availability, rendering services, doing practical things for a loved one, and other thoughtful "little" things. Many of you are talented at design work, as you appreciate and pay much attention to all of the little parts that make up a whole, with the goal of finding order and harmony in these systems. If you are not careful, you might pass up on true love opportunities in favor of relationships that serve a practical purpose in your life, or out of fear that you might not find better. Selling yourself short may be something that keeps you from going after what and who you want.

-87 Square between Venus - Mars

Whether it's an infatuation or a full-blown love affair, relationships get you out of bed in the morning. You are passionate and seem to need an active romantic and sexual life to drive you. Often, this area of life is somewhat challenging, especially in youth. As much as you want to be involved in a passionate affair, your timing can be off and/or it's difficult to find a relationship that mirrors your strong desires and expectations. Especially when you are young, there can be a real awkwardness with your social skills--this may or may not be apparent to others.

You are highly creative and generally are driven to express that creativity. Your passion for romance is often channeled into your creative output. For example, challenges in relationships may be a large part of the drive behind your poetry, music, or other art.

Love and hate are very much mixed together for you. You are prone to love-hate relationships with others, likely because your passions are such that the old saying "there's a fine line between love and hate" rings especially true for you. Some level of competitiveness, anger, frustration, or angst is present in your romantic relationships. Although you are quick to anger, you are generally just as quick to forget about it.

Short description: While she is passionate, she likes carnal desires and voluptuousness above all. She may go to excess and can often be unsatisfied. Should probably learn moderation.

## **Mars**

---

Mars represents the desire for action and physical energy.

Mars is in Leo

This position of Mars gives a drive for significance. Mars in Leo individuals possess a strong need to create in some way--and they are determined that their lives have not only meaning, but significant meaning! This is a particularly vital position of Mars. Passions run high, and so does desire. There is a strong will that gives these natives much staying power. Though Mars in Leo people will enjoy the pleasures of risk-taking, they generally have a strong sense of reason at the end of the day. Mars in Leo people often have well-defined ambitions. Rarely will you find a person with Mars in this position who lives life without a true sense of a "calling". They act with authority and power, and their personal magnetism generally endows them with the ability to get what they want.

This is one of the more sexual positions of Mars. While they are rather easy to arouse, their passion is long-standing. Mars in Leo natives enjoy sex more than most, as long as heavy doses of love and romance are part of the package. In partnership, they demand loyalty and admiration. Impatient with small-mindedness and disloyalty, Mars in Leo natives generally have a strong idealistic streak. They easily get fired up when they feel they've been humiliated, and they defend their high principles with ardor. Mars in Leo natives act with

their heart. Their ego is tied up with their actions, so that most anything they do becomes a source of great pride. Though some are self-righteous and quarrelsome, the more sophisticated people with this position are kindly leaders.

Mars in III: Mars is in the third house

Lively spirit, alert and ingenious but can be sarcastic, critical, provocative. She is quarrelsome at times. She expresses herself easily, does what she wants: success is at the end of the road. She is capable and acts quickly.

You speak your mind quite readily, sometimes shooting from the hip when it comes to expressing your ideas and opinions. You tend to know a lot about a variety of subjects, and like to share that knowledge with others (sometimes too forcefully!). You are generally very direct and clear when it comes to communicating. You can easily get worked up about what others might think are trivial matters. You love a good debate. Whether you know it or not, or no matter your intentions, you can be provocative in your communication style. You are likely gifted with manual dexterity, although you might easily become impatient with tasks. At your best, you are enthusiastic, animated, and lively in the way you express yourself, and this can inspire others. You will fervently defend your opinions and beliefs, as well as your family and childhood.

122 Sextile between Mars - Jupiter

She has a good sense of organization, she is jovial, frank, and sincere. She is full of dynamism and abundant energy. She loves life, taking all it has to offer. She likes sports and the outdoor life. She is successful professionally and emotionally. She may have many children or projects and ventures.

She is honest and forthright in her dealings with others, and She tends to trust others readily. She can be a bit careless about spending money, however, and this is probably because she is so eternally optimistic that there will always be plenty around. The possibility of failure does not enter her mind, although success itself is not as important to her as enjoyment and happiness are. Can be pleasantly competitive and good-humored.

107 Sextile between Mars - Saturn

She is energetic and determined. She has strength and resistance, ability and patience. She is tough, and sometimes insensitive, putting much of her energy and talents into overcoming all the obstacles to her success. She is obstinate, calculating, aiming not to take on anything without having thought of all the possible consequences. She can take all the time in the world, rarely losing patience to achieve her objectives. Even if impatience is indicated in other areas of the chart, this Mars-Saturn placement suggests an overall persistence in the

long-term. She is not necessarily especially sociable unless other indications strongly suggest so, but respected. There is a reverence for order and following rules to keep order, for the most part.

## 2 Trine between Mars - Neptune

Her feelings are dominated by wisdom, intuition, and instinct and geared towards the ideal. She likes water, sea voyages. She likes odd people, situations. Can often use a gentle approach to pursuing desires.

## -28 Opposition between Mars - Midheaven

She might suffer professional setbacks through actions that are too impulsive, imprudent, or lacking in forethought.

## **Jupiter**

---

Jupiter represents expansion and grace.

Jupiter is in Libra

She attracts the most good fortune when she is fair-minded, treats others with equality, bends without being a doormat, is gracious, and uses her talents at promoting and mediating. Values people and relationships, and might succeed best in partnership. Relating as equals is important to her. The arts, architecture, law, math, mediating, and politics are possible avenues for success. Use of charm and grace to reach goals.

Jupiter in V: Jupiter is in the fifth house

She should fare better working independently without relying on anyone else, but should develop more self-discipline in order to get things accomplished. Usually very much dislikes routine.

She is likely to enjoy work associated with science and technology and might love gadgets or new ways to improve productivity. Working, especially the day-to-day grind, may be more of a chore to her than most. Her freedom loving instincts propel her to seek out work that allows the most personal freedom. A regular nine-to-five kind of job is likely a turn-off. Her work desk may very well resemble a disaster area. Natural creativity and a desire to do mundane things differently and more efficiently are her forte. On matters of health, she is the kind of person who keeps up with the ever changing views of health experts. However she is more than likely to adopt some unique views of her own that differ from what the "experts" are saying.

#### Lilith in Sagittarius

She may have felt uncomfortable or even ashamed for her curiosity, questions, restlessness, the need to challenge and question life/facts/beliefs, or the need to get away, expand, and seek meaning. She may feel uncomfortable around people who are expressing these Sagittarian traits, not quite trusting them! Learning to accept and even embrace these traits without apology can be empowering. It can also help end a cycle of going to extremes with these traits.

This aspect sometimes means a troubled sex life until she learns to feel more comfortable expressing and integrating this side of the personality.

### **North Node-South Node**

#### True North Node in Cancer

She is excellent at managing, overseeing, and organizing. She is learning to work on her inner foundation, accepting her need to nurture and be nurtured. Her path is to moderate her tendency to over-manage her life and to relax her standards of achievement. As she does so, she discovers she more easily achieves her goals. She also learns to trust her instincts. Qualities to develop: willingness to be cared for or supported, subordination.

#### North Node in III: North Node in the Third House

She should pay more attention to her daily affairs to improve her confidence and sense of order. The desire to be free is strong, but she is likely to live in a state of chaos until she

disciplines herself to be more present in her daily affairs. Taking the time to listen, learn, and organize can do wonders for her peace of mind. Qualities to develop: curiosity, willingness to learn from others.

## The Houses

---

*House I* is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Libra with ascendant Gemini

Ascendant is Gemini

Those born with Gemini rising see the world as a place to learn. They are curious about the people around them. Sounds similar to Sagittarius rising? Well it is, but there are some important differences. While Sagittarius seeks to expand their mental and physical horizons in a broad sense, Gemini is mostly interested in moving about in their social circles. These are people who love to ask questions, to move around freely, and to mingle. Definitely restless and often quick in physical expression, natives of the Gemini Ascendant exude an air of impatience even if they don't mean it. In fact, there is a cleverness to Gemini Ascendants that can intimidate some, especially sensitive folk. Their facility with words can be a wonderful asset, although sometimes Gemini rising individuals identify too much with their mental agility and forget, in their personal interactions and communications, to nurture the people around them. A certain lack of warmth in presentation can be the result, and although this style is generally a facade, it is not immediately apparent to most. People with, for example, predominant Water signs may feel a little ill at ease with Gemini rising people (that is, before they get to know them more personally), while strong Air types more fully appreciate the fun and cleverness of these individuals.

I have found two styles of presentation most common with Gemini rising people. One style is bubbly, changeable, talkative, and a little quirky. These natives are interesting and fun. They constantly explain things, whether it's their own behavior and opinion or those of the world around them. Another distinct "style" is a rather cool and intellectual demeanor. These natives are often quite witty and clever, but they present themselves in a less cheerful and changeable way than the first group. Their observations are sharp and the overall manner is a tad brusque. No matter the style, Gemini rising natives are given to analysis and making sense of their world. Their powers of observation are well-developed, they are mentally active (more often than not, their minds are racing!), and they almost always have something bright or witty to say. It is easy for individuals with this position to get sidetracked, as their curiosity is large, their minds are quick, and their attention spans rather short! As children, natives born with a Gemini Ascendant are often labeled as the intellectual, inquisitive, and perhaps odd child. Many feel their upbringing lacked some warmth. In one-to-one relationships,

Gemini rising people often seek a certain amount of personal freedom and space. They enjoy intellectual debates and exchanging ideas. Although they often demand a fair amount of freedom, they are often just as willing to give their partners room to breathe.

House III - the third house - is the area of social and intellectual learning.

#### Cancer on House III
