What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign. If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Aspects between the planets are also listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in

a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart report.

### Planet Positions, Ascendant, & Houses

---

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

The following table shows the planetary aspects in your natal chart. Interpretations of these factors are found below. The numbers listed under the column "Value" serve as a relative rating system for each aspect and are determined based on the planets involved, the aspect type, and the orb of influence. ### Natal Chart Report

#### Birth Chart

This birth chart report shows the positions of the planets for Lisa.

#### The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Aquarius

One of the standout characteristics of those born under the Sun Sign of Aquarius is their unwillingness to follow the beaten track. With advancement and progress on their minds, there can be an irreverence to old and outdated ways of thinking and doing things. Many Aquarians aim to free themselves of personal and social conditioning. Although open to change in theory, Aquarians can be surprisingly stubborn. Their idealism runs strong, but they can be very fixed in their opinions.

Often a bit aloof and even standoffish, Aquarians nonetheless are usually well-liked. They are curious and observant, and tolerant in a broad sense. Prejudice and bias is offensive to the typical Aquarius. Aquarians are generally very clever, witty, and intellectual. They value progress and frankness. It's difficult to throw Aquarians for a loop--they're generally on top of things. There is a bit of reformer in Aquarius. They'll try to get you to see through superficiality, and encourage you to be open and forthright. "Be true to yourself" and "Don't follow the crowd" are mottos we easily associate with this sign. Aquarians need space and value personal freedom. Any attempt to box them in will likely fail. They'll happily return the favor; and they will treat people from all walks of life as equals. Equality and fairness are hallmarks of the sign. If you're quirky and "different", all the better.

Short description:

She is independent, autonomous, and has progressive ideas.

Weaknesses: an unusual, rebellious and revolutionary spirit.

Aquarius with ascendant Libra

She is bright, inspired, and much of the time, she lives in her mind! She has a brilliant and unusual and a bit zany viewpoint. Ideally, there are more grounding factors in the chart, or else there can be some problems with impracticality, boredom, and distraction. She is delightful company.

Sun in IV: The Sun is in the fourth house

You invest much of your pride and energy into your personal and private life, your home, and your family. Privacy is important to you. You are naturally protective of your family, including your heritage, and of your personal life. Avoid being defensive as you work to build a secure foundation for yourself and the people you love.

94 Sextile between the Sun and Mars

You are enterprising and have powerful stores of energy that you can draw upon when needed. You respond to problems or challenges with a spirited and enthusiastic confidence that is admirable. You are naturally competitive, and this trait is generally well-received by others simply because it is unforced, unaffected, and sincere. You truly believe in fair play, and you seem to be in love with life. When you are expressing competitiveness and courage, it's easy for others to smile and accept these traits as positive ones rather than being rubbed the wrong way. You have good physical vitality. Although competitive, you are not naturally combative. You may enjoy sports or games that are competitive, but not violent. Breaking the rules of a competitive game is particularly upsetting to you. You are more able than most to control your desires, aggressions, and instincts. You know how to be fair, and you expect others to be fair. As such, sneaky behaviors, uncontrolled impulses, violence, and rage are offensive to you.

-61 Square between the Sun and Pluto

You may be prone to inner tension and negative, self-destructive behavior. When things are going well, you suffer from fears that something will come along to change that. Constantly worrying that the rug will be pulled from under your feet can easily become a self-fulfilling prophecy. You possess tremendous power and strength--when you learn to accept and use that strength, instead of fear it, you can be one of the most effective, insightful, helpful, and healing person around! At times, you can be intensely dissatisfied with your personal accomplishments and expressions of self. You put a lot of pressure on yourself regarding your own endeavors. You can be quite dissatisfied with your creative self-expressions, and want to hide your expressions from others until you feel the output is "right". This is largely due to a perceived inability to express or reveal your true personality to others. You struggle with a deep need to control yourself and life itself. You are especially sensitive to criticism, and feel the need to "redo" yourself often. There is a marked fear of losing control, and this might stem from some traumatic event in

childhood, or the childhood might have been crisis-ridden or emotionally-charged in general. As such, you can be intensely fearful of, or threatened by, change. This can express itself through attempts to control your life in such a way that you can manage your fears of being taken off guard. Of course, this generally backfires! You have an intense need for privacy at times.

#### -85 Opposition between the Sun and Lilith

There is a self-destructive side to you that should be managed by confronting your fears. You might worry about a friend betraying you, although others might find this person full of charm!

#### 12 Trine between the Sun and Ascendant

It is easy and natural for you to be received well by others. There is a distinct air of authority and magnanimity surrounding you. The authority you project generally doesn't offend others, generally because sincerity is sensed at the same time. Most people would describe you as natural, easy to like, and friendly. You may have a marked interest in the performing arts and/or sports and games, both as a spectator and participant. This is an especially favorable aspect to have for those who are in the public eye.

## **The Moon**

---

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Virgo

Lunar Virgos find security in the little things in life. They feel most content when they've straightened out all the details of everyday life. Many of them enjoy running errands, paying bills, and balancing the books. They take care of these things happily, although some won't let on. In fact, many Lunar Virgos are quite practiced at nagging and complaining. As long as they are appreciated, however, these people will help you take care of your life, too. They are at their best when they feel useful and needed. If somebody needs help, they are generally the first to jump up and take on the task.

Some people with Virgo Moons are accused of being underachievers. While it may be true that Lunar Virgos can lack self-confidence, many are--quite simply--content with living "regular", unassuming lives. They appreciate simplicity, and are often most comfortable when they're not getting too much attention from the world at large. Lunar Virgos are easily overwhelmed by pressure and stress. They worry incessantly when there is too much to think about; and they know their limits. Arguably the worst position for a Lunar Virgo is without a steady routine or a simply satisfying job. They need to feel useful, and they best express this by helping others in little ways. They need something to call their own, and the space to do what they want to do. The unhappy Lunar Virgos are fussy and complaining sorts. They are victims of routine and freak out when their plans

are not followed. They are restless and nervous, and can't seem to see the big picture. Probably the best remedy for these people is a job or hobby in which they can express their deep need to analyze, attend to details, and micromanage.

These people express their affection for the people they care about in little, but practical, ways. They can be a little stiff when it comes to open, gushy displays of affection. Lunar Virgos are often shy with new people. However, when they are comfortable, they are anything but shy. More often than not, others can count on Moon in Virgo people. They are reliable and trustworthy. Above all else, Lunar Virgos are practical. Others turn to them for help and advice. In relationships, Lunar Virgos can be self-effacing and kind. Some are quite shy in love, and easily intimidated on a sexual level. Many are not very comfortable with their sexuality, but they aim to please nonetheless. The sign of Virgo is very body-aware, in general. If this awareness combines with a lack of self-confidence, Lunar Virgos can be too aware of the parts that make up the whole. This can lead to a tendency to be intensely self-critical. Once Lunar Virgos learn to come out of their shell, however, they can be earthy partners with a lot to give.

Some of the most skeptical people are Lunar Virgos. They can't help but poke holes when faced with others' blind faith. Their criticism can be maddening, and their insistence on seeing the practical in anything emotional can be challenging, especially if you are the dreamy type. Virgo curiosity shows up big time with this position of the Moon. To some, it can be confusing. Lunar Virgos seem very interested in others' problems, for example, but can be quite cool and even unsympathetic in the long run. Their advice can seem hard to more sensitive folk; yet Lunar Virgos can be surprisingly delicate when faced with others' criticism. Virgo Moon people are generally busy and quietly happy when they have their lives under control. They aim for a simple existence, and are often quite content with very little. Many are early risers, ready to take on the day with enthusiasm. They scurry around, keeping busy and managing their life quietly and expertly. As long as their little world is manageable, Lunar Virgos can be a delight to be around.

Short description:

She has a very good memory. Scientific or medical studies preferred above all others. She is humble and moderate, calm and reserved. Emotional discipline. She is willing to help, devoted and gentle.

Potential issues: servile nature, frequent changes of occupation, quick to become annoyed, upset, worried. She is too shy.

Moon in XI: The Moon is in the eleventh house

Lots of friends, relationships. She makes friends easily and uses her relationships to further professional success. Feelings of friendship are sometimes superficial. Often, lots of children or nurturing friendships.

This position of the Moon indicates an emotional need for a feeling of belonging with, and support from, friends and associations with groups. You look to acquaintances for support, and offer the same in return. A changeable or unstable social life might be a reflection of inner emotional unrest. Waxing and waning feelings for others can cause problems in your relationships. You are a person who is filled with many dreams, wishes, and hopes for your future, and most of these are altruistic and good-hearted desires. However, you might change your aspirations frequently, with your changing moods, and have a hard time settling on goals to work towards as a result.

### 98 Trine between the Moon and Neptune

Positive aspect: She is kind and sympathetic, with a strongly compassionate nature. When in love, she is usually very devoted. In fact, she is devoted by nature, not only in matters of the heart.

There is an unmistakably compassionate and understanding side to her nature. She has a natural affinity to music. While everyone enjoys music, people with Moon in harmonious aspect to Neptune respond to music as a vehicle to heal, relax, and to uplift the soul. Naturally perceptive, without even trying she tunes into the feelings of others, and the mood of her surroundings. There is a distinct emotional need to escape into the world of imagination, and to withdraw from others at times when she needs to re-center herself, largely because she tends to "take in" a lot of mixed energies from her surroundings. Strong and sudden "feelings" and hunches can overcome her. More often than not, her intuition is correct, although her imagination is also powerful and she can read too much into a situation as a result. Some laziness is associated with this position. This stems from a natural timidity and sensitivity that is apparent from youth. She may have been labeled "shy" in youth, and family members or friends may have jumped in to "save" her from situations that required boldness or aggressiveness. Thus, passivity was accepted and, as adults, she may be less experienced than most when it comes to reaching out or going after what she wants.

### 37 Sextile between the Moon and Pluto

She can waver between a rich and successful domestic life and social success, perhaps having difficulty succeeding at both. Very perceptive and given to psychoanalyzing people. A strategist. Powerful emotions and intense feelings.

## **Mercury**

---

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Aquarius

Not necessarily loud or flamboyant, but she often has a quiet way of stirring others up. May delight in exposing what she deems biases in others' way of thinking. Very quick to contradict others and to offer a different perspective, she enjoys intellectual debates. Amazing powers of observation, and a quirky way of looking at the world. Humorous and interesting. Likes practical jokes and raising eyebrows. Very fair and objective.

Mercury in IV: Mercury is in the fourth house

Good education; she is cultivated, enjoying literature, family life, and family relationships.

You are an extremely imaginative person who dreams up all sorts of unusual ideas and plans. Your thinking is quite subjective, and in some cases narrow or biased. Some of you might enjoy working at home or keeping a lively, intellectual atmosphere in your home. You tend to retain a lot of information, and are usually quite interested in history, psychology, or politics. You are not quick to embrace a new idea or plan, and can be quite traditional in your thinking.

85 Sextile between Mercury - Jupiter

She is intelligent with big ideas: She is tolerant and has a strong sense of justice. She has good judgement, good sense and has her feet on the ground. She has the "gift of gab," fully enjoys literature and learning. She is erudite and will usually be successful socially.

152 Sextile between Mercury - Saturn

She is precise or strives to be mentally organized. She is able to study, concentrate, and focus, and often has the patience to work towards a goal slowly but surely. She may take time to get communications "just so" and prefers step by step directions. Respects tradition and rules, preferring a sense of order.

124 Sextile between Mercury - Uranus

She is perspicacious, ingenious. She binds intelligence and originality together with genius. She likes literature, especially fiction. She is spontaneous in her friendships and knows how to turn situations around positively.

-10 Opposition between Mercury - Lilith

Can be provocative in speech or communications, often challenging and contradicting, and seeing the flaws of a situation. This might be someone who holds back her sensuality.

26 Trine between Mercury - Ascendant

She is intelligent, with quick and lively reflexes. She is preoccupied with her circle, likes to exchange ideas with her friends, but also with strangers. Of an open nature, often reaching out to others.

## **Venus**

---

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Pisces

Venus in Pisces people project themselves as dreamy, soft-hearted partners. Everything about the way they flirt promises a lovely time. Theirs is an elusive charm -- they are

sweetly playful, a little moody, and perhaps a little irregular. They appreciate romance and poetry, and they prefer to "feel out" both you and the relationship you share, so don't expect too much planning ahead. Their sensitivity can be a little misleading at times. Yes, they are sensitive folk, but lovers may find it maddening that this sensitivity is not only directed at them, but towards all of mankind. Venus in Pisces men and women want you to know that their love is unconditional. They are unimpressed by your status, and love and accept you for all that you are inside. They love the underdog and are attracted to wayward folks, or those in need of a little help. With their romantic view of the world, they can be unreasonably attracted to states of suffering and martyrdom, so they easily get into the role of saving someone, or being saved. Unlike Venus in Libra, which thrives on equality, Venus in Pisces is actually turned on by inequality! They can be rather confusing and hard to pin down as they feel their way through their relationships. As much as they may want to, they find it hard to commit. Many do end up committing, however, at least on the surface.

Pleasing Venus in Pisces involves enjoying tender moments and romantic times with them. You won't always be able to count on them. In fact, you can be sure they will stretch the truth every once in a while. But remember they do this because they fear they might hurt you, and they can't bear to cause you any heartache. Try to understand them, although that's never an easy task considering the fact that they don't always know themselves. And, truth is, some Venus in Pisces privately have a love affair going with the idea of being misunderstood. Try to put up with their apparent lack of direction in the relationship -- they are so receptive and open to all possibilities that it is hard for them to commit to any one thing, idea, or even person. These intriguing partners will reward you with a love that is accepting and comes as close to unconditional as humans can get.

Venus in V: Venus is in the fifth house

She wants to succeed more than almost anything in the love life. She meets pleasant people and has very good friends, usually without too much conflict. She especially likes amusements, parties. She may have many children or love affairs.

Interest in love and/or sex for you likely started young. Playful, sensual, and amorous, you are in love with love! You thrive on romantic attention, and it is easy and natural for you to always have a crush or romantic interest. There is a romantic, playful side to you that is unmistakable. It keeps you young at heart! You are sensuous and enjoy indulging in the pleasurable senses to the fullest possible extent. You enjoy surrounding yourself with beautiful art and music, and these may play a role in your ideal date scenario. There is a touch of the dramatic in you when it comes to love and sex. You are generally quite loyal to your partner, and you are both charming and easily charmed. It's also easy to turn your head. You are a warm, fun and playful date.

-32 Square between Venus - Saturn

She is hard or reserved at times, and doesn't always know how to express her emotions. She may be frightened of showing her love, and this can lead to disappointments, break-ups, lack of satisfaction. She has doubts, can be suspicious, worries too much, possibly

jealous but more likely insecure. She will learn how to be happy in love, to be at ease with herself and to control her jealousy or gain more assurance and sense of self-worth in the second half of her life, possibly thanks to a mature person, who helps her learn to trust.

#### -22 Square between Venus - Uranus

She may look for new sensations in love and might often feel unsatisfied by connections that quickly turn into purely conventional relationships. She likes novelty, adventure, the eccentric. She is frivolous, unstable, or inconstant. Marriage is not usually for her and, if she does throw herself into this adventure, it may eventually be considered a youthful mistake. There can be numerous love affairs or off-and-on relationships. There is a tendency to react spontaneously and intensely to others, and there is marked emotional impulsiveness. Perhaps her most successful relationships are unconventional ones. She may delight in defying convention. She has considerable romantic charm and humor. There can be sudden relationship status changes, and a marked inner craving for emotional excitement.

#### 289 Conjunction between Venus and the North Node

This aspect indicates diplomacy and attractiveness. There is a certain luck in meeting others at the right times. There is skill in harmonizing and much desire to cooperate rather than compete.

#### 16 Trine between Venus - Midheaven

She has good taste, an affectionate nature, her love is warm and deep, based on intellectual understanding and common tastes. Her friends are useful in furthering her career. Good reputation in the professional world. Well-liked for what she does for a living.

## **Mars**

---

Mars represents the desire for action and physical energy.

Mars is in Sagittarius

When Mars in Sagittarius people get angry, they feel like running. They have to do something--not about it, but something else altogether. They don't have a lot of patience to wait things out. This is where the restless and adventurous nature of Sagittarius comes in. People with this position of Mars should seriously consider physical activity as the best means of anger management, if they don't already (naturally) do so. People with Mars in Sagittarius generally have a number of projects going at once. They are not known for their follow-through, however! They start up new projects, however, with admirable gusto. Their vision and optimism can get in the way of completing what they start--they want to do so much, and they trash things too easily when a new idea takes hold.

Most of the time, Mars in Sagittarius is playful and fun-loving. They love friendly debates, although they can go to extremes. Some take it personally when you don't agree with them--why wouldn't you agree, after all? Well, for one, you might (especially if you have planets in Virgo or Gemini) find plenty of holes in their arguments. The thing is, more

often than not, they haven't thought things through, yet they're very passionate about what they believe in. Mars in Sagittarius loves to "wing it". Mars in Sagittarius people see themselves as warm-blooded folk. They are, but they sometimes run roughshod over others' feelings during their more passionate debates. They can be blunt with people, although if they have a more tactful Mercury placement, this quality will be subdued. Their direct, blunt approach is most obvious in bed. They're passionate lovers, and are turned on by open-mindedness and good humor. But, they are not usually patient when sex gets too intricate or serious.

Mars in Sagittarius can be a little hard to understand. Sometimes they seem to be the most easy-going of people--they love a good joke and a good time. Other times they are on fire--intense and impassioned about something or other. They abhor anything that fences them in. They need to feel like they have space. They're the ones who will run away when things get too serious or dull. They'll likely be back soon--it's just that they need to feel free for a while or they go batty. When these people argue, they can too easily pick up a moralistic stance that drives everyone around them crazy. More likely than not, however, they jump off their high horse sooner than later, and get back to having fun. Mars in Sagittarius is used to getting their way and persuading others to believe what they believe in. Every now and again, they face the few that don't quite buy their grand theories, or, worse yet, poke holes in their plans. This is when these normally fun-loving people get frustrated. In fact, they take it personally when others don't agree with their philosophies.

Mars in II: Mars is in the second house

She may undertake daring and dangerous enterprises at times. She has lots of initiative. She works hard for her money, of which she is capable of learning a lot. She is a spendthrift at times, money comes and goes. She is always ready to start from scratch in the event of a setback. Great willingness and enthusiasm.

You are likely to be a hard worker, although you appreciate the process and might be slower than some as you focus on the method and tend to each step deliberately and carefully. You love to produce things of practical value. You are ambitious when it comes to making money and acquiring possessions, but you might be impatient or impulsive when it comes to spending. You can be quite possessive, both of material things and of people. You like a physical challenge, and your physical abilities and energy make up a strong part of your sense of self-worth. You like to work independently, or you value things most when you have achieved something on your own. The world of the five senses is most important to you on sensual and sexual levels. You have a hearty appetite with strong stamina. You defend your values fervently.

31 Trine between Mars - Jupiter

She has a good sense of organization, she is jovial, frank, and sincere. She is full of dynamism and abundant energy. She loves life, taking all it has to offer. She likes sports and the outdoor life. She is successful professionally and emotionally. She may have many children or projects and ventures.

She is honest and forthright in her dealings with others, and She tends to trust others readily. She can be a bit careless about spending money, however, and this is probably because she is so eternally optimistic that there will always be plenty around. The possibility of failure does not enter her mind, although success itself is not as important to her as enjoyment and happiness are. Can be pleasantly competitive and good-humored.

55 Trine between Mars - Lilith

Love affairs are passionate. There is an instinctive understanding of intensity, the dark side of our natures, and passion.

32 Sextile between Mars - Ascendant

She is energetic and direct.

## **Jupiter**

---

Jupiter represents expansion and grace.

Jupiter is in Aries

She attracts the most good fortune when taking the lead, initiating, inspiring, and demonstrating enthusiasm and courage. She believes in the power of positivity, that life is what you make of it. Likes competition, doing things independently.

Jupiter in VII: Jupiter is in the seventh house

She has a good marriage or partnership, with a useful partner who helps to bring success if only by their advice. Good legal outcomes. Traditionally, this placement has been associated with benefits through marriage or partnership.

32 Trine between Jupiter - Saturn

She is serious, patient, honest, hard-working, orderly. Her judgment is good and she is inclined to think things over. She pursues her objectives to the bitter end, usually knowing when to choose the right moment. She is upright, usually law-abiding and respecting order.

24 Trine between Jupiter - Uranus

She quickly sizes up a situation and knows what's going on at a glance. She thirsts after knowledge, and is a good organizer. She is very independent, her freedom of action is extremely important to her, is non-conformist. She is very agreeable company and is always in demand.

18 Trine between Jupiter - Lilith

She could meet a partner much wealthier than herself. Good sexual understanding.

-77 Opposition between Jupiter - Ascendant

She appears to have a very honorable and generous attitude toward others, and others assume that she has their best interests at heart. Because others see her as tolerant, understanding, and wise, they may also turn to her for advice. May go to excess when eating.

She may feel uncomfortable with people expressing these Leonine traits. She needs to find ways to accept the very natural and human need for applause. This can help put an end to extreme behaviors in these areas wherein there is a period of remorse after she seeks attention and perhaps goes to an extreme.

## North Node-South Node

---

The South Node represents our overdeveloped character traits. We are talented here but if we overdo this area of life or hold onto these traits to feel secure, we may stagnate. The North Node points to the qualities that we need to work on and develop to achieve inner balance and fulfillment.

True North Node in Pisces

Her path is to learn to worry less and believe more. Overthinking and overanalyzing her life limits her growth. She is learning to let go of perfectionism. She learns to pay more attention to mental health and emotional healing and to relax the rules from time to time. Qualities to develop: faith, belief, tolerance, compassion for oneself.

Her path is to believe in herself enough to feel comfortable expressing her unique creativity, to be the center of attention, committing herself to a definite path rather than shooting in the dark. Although she feels less pressured and more comfortable in a group or informal setting, moving out of this comfort zone once in a while can enhance her social and romantic life tremendously. Qualities to develop: self-confidence, getting personal, willingness to stand out or call attention to herself.

## The Houses

---

*House I* is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Aquarius with ascendant Libra

She is bright, inspired, and much of the time, she lives in her mind! She has a brilliant and unusual and a bit zany viewpoint. Ideally, there are more grounding factors in the chart, or else there can be some problems with impracticality, boredom, and distraction. She is delightful company.

Ascendant is Libra

Everybody seems to like Libra Ascendant natives. They just come across as nice, pleasant, and fair. Look a little closer at their lives, and these nice people may have had quite a few problems in their relationships. Some of them have had a string of relationships, and it can be hard to imagine why! These natives attract others to them effortlessly. Besides, they simply don't know what to do with themselves without a significant other. Libra rising generally appear to be smoothing everything over. They have charming smiles, a gentle approach with others, and an easygoing image. Even if they were not endowed with good looks, they are attractive. Most pay a lot of attention to their personal appearance -- the colors they wear, their hair, the way they walk.

Libra rising people can be enormously persuasive, although they will almost always use a "soft sell" approach when they want to win others over, which is all of the time! A tendency to pass the buck and keep up that "nice guy/gal" image are their worst qualities. However, they can make excellent mediators and will generally be the first to accommodate you. Libra rising natives are usually attracted to competent, active partners. Their relationships are often characterized by bickering or competitiveness until they learn to drop their sweet image once in a while and to stop blaming their partners for everything that goes wrong.

House II - the second house - is the area of material security and values. It rules money and personal finances, sense of self-worth and basic values, personal possessions.

Scorpio on House II

Financial success may come through handling other people's money and resources or thanks to an inheritance. Financial ups and downs are very possible, but in later life, finances can be substantial. Private about revealing her worth.

House III - the third house - is the area of social and intellectual learning.

Sagittarius on House III

She may study for a long time, can be erudite. Very intelligent, an open and independent spirit, will have a connection with foreign countries. Fertile intelligence.

House IV - the fourth house - is the area of home, family, roots, and deep emotions/sense of self-worth.

Aquarius on House IV

She may leave the family home reasonably young. She loves liberty, wanting a life that is out-of-the-ordinary or breaking the usual traditions, and certainly one that does not mimic the ancestors or parents.

House V - the fifth house - is the area of creative self-expression, romance, entertainment, children, and gambling.

Pisces on House V

With lofty feelings, she is full of tenderness, sentimentality. Things do not always go her way, but she doesn't expect them to. A meeting with a person who is either not free, the wrong age, or from a different family or social background can figure strongly. There can be some melancholy related to situations like these. A lovely little family can be in the cards.

House VI - the sixth house - is the area of learning by material transaction.

Aries on House VI

Ability to command, easily meets her responsibilities at work. Weak point: headaches, fevers.

House VII - the seventh house - is the area of one-to-one relationships such as marriage and partnership, and of social and intellectual action.

Aries on House VII

Love-at-first-sight; may partner without thinking. She doesn't want to change her habits, perhaps leading to many arguments that are quick to start but also quick to resolve. She may not have much patience for the "clinging vine" kind of partner, preferring much activity and someone who can take charge. An active partnership.

House VIII - the eighth house - is the area of emotional security and of security of the soul.

## Taurus on House VIII

Happy old age, natural death likely. Inheritance.

House IX - the ninth house - is the area of learning that shapes the identity.

House X - the tenth house - is the area of material action. The Midheaven represents the work one will do in one's life, the place one will take in the world of society. It becomes more important as one grows older.

## Leo on House X

All the leadership qualities are there: authority, sense of organization, initiative, intelligence, but also thanks to outside help. She is a fighter.

House XI - the eleventh house - is the area of search for social and intellectual security.

## Virgo on House XI

Friends must resemble her, as she may not trust anyone having different ideas or ways of doing things. Discussing ideas frivolously is not necessarily her cup of tea. Her knowledge is often the result of study but also of the down-to-earth nature that characterizes her.

House XII - the twelfth house - is the area of education and of emotion. This is where we meet our karma, deal with endings, and sometimes where we bury things.

## Libra on House XII

Marriage doesn't always bring luck, honors come as she imagined they might.
